

Job Description

Job Title: Workshop Fitter

Reporting to: Production Manager

Job Purpose:

Execution of Production Tasks, Assist tank builders, GRN system.

Are you an experienced Mechanical/Electrical Fitter with a background in Engineering/Assembling work looking for an opportunity to work within a dynamic and fast-growing company?

You will be responsible for testing equipment, repairs and coordinating with engineers and tank builders, to ensure high-quality work and safety compliance.

This role would suit a trained engineer looking to grow their knowledge and skills in an expanding company offering plenty of opportunities.

Requirements:

- Apprentice trained or qualified to minimum - Level 3 Diploma in Advanced Manufacturing Engineering OR Mechanical/ Electrical Engineering equivalent.
- Be confident at fault finding both mechanically and electrically.
- Must have an understanding of engineering drawings.
- Knowledge of working with Electronics and Pneumatics.
- Bench fitting skills.
- Experience working in an engineering environment.
- Experience with lifting equipment.
- Experience in a customer facing environment.
- The above qualifications are not essential but desirable.
- UK driving licence is required.

Key Responsibilities and Accountabilities

- Completion of a wide range of production tasks to the required quality standards.
- Assemble manufactured components into sub-assemblies.
- Testing and reworking a wide range of products.
- Work to be carried out within our GRN system.
- Assist in tank builder visits.

- Occasional stores tasks to be carried out.
- Responsible for keeping work areas clean and tidy and safe from hazards.
- Report and record nonconforming products and components.
- Participate in meetings and training for development.
- Working closely within a team and on your own.

Although this is not a comprehensive list of responsibilities you may be asked to do anything deemed by the company to be within your capabilities.

Benefits:

- No shift work! Regular days, Monday to Friday
- 25 days holiday + bank holiday
- Holiday purchase scheme
- Time served holiday reward scheme.
- Relaxed and friendly working environment
- Extensive training given in house.
- Free parking
- Bonus scheme
